DRAWING FIESTA

is a Brussels-based creative workshop series that celebrates the city's diverse languages through drawing and storytelling. After our inaugural Fiesta at Muntpunt, we will move the party at Vroom, for a weekly workshop.

In these workshops, guided by two artists with distinct mother tongues, participants will explore language nuances in a three-hour session. We'll immerse ourselves in sayings, sentence structures, politeness, reading directions and phrases.

Throughout the series, we'll engage with 10 languages, all communicating through the universal language of imagery.
